SIGHTSEEING OBJECTS

Koknese Medieval Castle Ruins 33 are located in the flooded confluence of the

Daugava and the Perse. The castle was built in 1209 for the needs of the Archbishopric of

Riga. It was situated on the very top of the dolomite rock and was difficult to conquer. In

1701, the castle was blown-up by the Saxon troops, and it was never rebuilt. The castle nov

stands in water as a result of the construction of Plavinas HPP. The visitor centre arranged

sport, medicine, police, childhood and culture

SKRĪVERI COUNTY

Skrīveri Dendrological Park

The creation of the 16.8 ha large park was started in 1891 by the distinguished dendrologist Maximilian von Sivers. The park has been divided into 19 floristic regions. On the other side of the road you will find forest culture and nature trails: Moss Trail, Lake Trail and The Good Luck Bear Trail. Rest area with a gazebo and fire places next to Lake Kalnamuiža. Advance booking. +371 25661983, tip@skriveri.lv

2. Biological Farm "Ragāres"
